The Ride and Tie Association is a great organization. It is a pleasure to be part of the staff that puts on the Ride & Tie Championship races. I have made some good friends and met some great people putting on these races. As the President I receive a lot of praise when these races go as well as they do. Aside from trying to be helpful and most of the time staying out of the way, my real asset is that I delegate well and I am a good worrier. The real praise needs to go to others.

I first would like to thank my wife, Annie. I have personally seen all the hours she put into making this event successful. Thanks to my new good friend since 2007 and second time race director, Chris Amaral. Heart! Heart! Chris is another fine delegate and he puts on terrific races. Special thanks to Sequoyah Ward, who with some encouragement may be the race director here at Humboldt for the 2012 Championship and Lisa Tine who worked hard and also kept Chris feeling good. Extra thanks to Marlene Allain, Renee Robinson, Casey Allen and all the tie-dyed Humboldt gang.

Congratulations to Michelle Andreotti and Susanne (Andreotti) Rowland, our past Woman/Woman team to win the Ride & Tie Championship. It is great to have the Andreotti back. Congratulations to all the Juniors who completed the race, especially Sera Howard and Lucas King who finished in the top ten! Welcome back to Gabrielle Mann, Jon Root, and David Tarphinian too. We have missed you all.

This was Greg Fellers’ first year as our Head Veterinarian. He and his staff of Jim Steere and Jeanette Merc did a great job. The transition from our long-time friend, Jim Steere, to Greg was very smooth. I believe the Ride and Tie Association is fortunate to have found such a fine replacement.

Cuneo Creek Horse Campground is by far my favorite horse campground anywhere! Part of what makes it so great is the camp hosts, Andy and Sharon Anderson. Not only do they keep the campground looking great they also helped us put on our event. You don’t have to be a group to camp at Cuneo. If you are in the area this summer with your horse, stop and spend a night or two. You will be glad you did. You can make a reservation on line and you probably should do so.

Another fine buckle was received by all finishers. This buckle will someday be worth a bundle as it has a slight error. If you look closely you will notice that there is no “D” in Humboldt.

It is time to start planning your next year’s vacation. The 2010 Ride & Tie Championship will be at Mt. Adams in southern Washington. It’s another great horse campground. There is lots of room. Everyone come and come early. This is another vacation destination.

The camp is located just past Trout Lake, Washington. Bring your skis. In June you can still hike to the top of Mt. Adams and ski down. The trails around camp are perfect for ride & tie. This is Washington, the “Evergreen State.” There are several white water rafting companies in Trout Lake and white water rafting on three different rivers in the area. I have been told there is some pretty awesome white water. Just a 20 mile drive and you can windsurf on the Columbia River, go fishing, or a little further you can check out the Bonneville Dam. And if you don’t want to camp there are “bed & breakfasts” in Trout Lake.

Congratulations to Jon Root for becoming our newest member in the 2,000 Mile Club. Congratulations to Jim Clover for earning his fifteen year pin for completing fifteen years of Ride & Tie Championships and to Steve Anderson, Carol Ruprecht, Rufus Schneider and Dave Van Wicklin who earned their ten year pins.

I want to thank Pat and Nila Browning and Cindy Brown for having served on the Board of Directors.

The election results for Board of Directors are: Steve Anderson 34, George Hall 34, and Lani Newcomb 32 for the three year term and Ben Volk 22 for the two year term. George Hall from California and Ben Volk from Washington are new to the Board.

We have a new Junior News Editor, Bethany Draeger, who will start with the next issue. Sarah Howard is our new Junior Representative to the Board.

We are looking forward to working with all of these new people.
**FIRST MAN/MAN TEAM**

Finishing seventh overall, Washingtonians Lucas King and Ben Volk were both surprised to find themselves with the honor of First Man/Man team. They had hoped to win first Pro-AM award, which they did. The Championship was Lucas' second ride & tie racing experience. Ben Volk finished third at last year's championship with Dale Fuller and first in the Short Course at Santa Ysabel in 2006 with Lisa Preston. (More about Ben and Lucas on page 6.)

---

**BEST CONDITIONED HORSE**

The Title “Best Conditioned Horse” was earned by the Andreotti family's 10 year old Arabian, “Over A Mile” aka “Maurey”. His trainer, Susanne Rowland says “I do a lot of arena work with him to get his basic foundation correct. I work him four or five days each week on dressage, pole work and small jumping exercises. One or two days he goes out on the trails, usually just trot work and hills, and one day he rests.”

His race experience includes a couple of endurance rides back in 2005, finishing first at Camp Far West 30 mile endurance ride last July and finishing second in the Wild West 50 mile endurance ride this year. He earned BC at Wild West also.

Maurey's first ride & tie was at last year's Cool Ride & Tie, where he finished first but was disqualified with a bruised frog.
Placing first in the long Short Course at the Championship was Carrie Barrett and David Tarpnian. About the course, David said: "The short course through the redwoods was the perfect distance and after a seven year hiatus, winning felt spectacular. I had forgotten how fun ride and tie is."

Old time ride & tieers, Dave Andreotti and Jon Root, finished second in the short course. I can only say that the short course for us was perfect, another loop would have done me in; you couldn’t ask for a more beautiful area," says Dave.

Third place winners, Sue Smyth and Jess Pinto loved the course. Jess Pinto commented, "This was my first Championship race & 4th Ride & Tie and I absolutely loved it!! The campsite was awesome & the trails were some of the more beautiful I’ve ever ridden/run. I loved the soft footing, fog chipping through the Redwood trees, little windy single tracks carpeted with leaves and weaving in and out of wild flower-filled meadows with sweeping views of green-blue valleys. The weather was perfect for running, not too hot, not too cold. The course was challenging but not too hard, a nice distance so you ended feeling like you really accomplished something but weren’t trying to kill yourself doing it!"
Andreotti Sisters Win Championship

For the first time in Ride & Tie history, a Woman/Woman team, Michelle Andreotti and Susanne Rowland, finished first at a Ride & Tie Championship. With a time of 3:57 they finished only three minutes ahead of last years winners, Jim and Sara Howard.

Susanne and Michelle are well remembered by some of the early ride & tieers as children who played in camp with the Richman kids while their parents competed. Susanne remembers an early race where she and Michelle competed on their 12 hand pony. Since then both she and her sister have competed in endurance, marathons and the occasional ride & tie.

Michelle says: “Last year at the Taylorsville Championship, our older gray Arabian, Scooter, was inducted into the Ride and Tie Hall of Fame, so our whole family made the trip to Taylorsville. We had a great time catching up with people we haven’t seen in years, crews for good friends, and mostly becoming inspired to be in the race. Susanne and I decided then and there we would enter next year and on the drive home we devised a plan: The plan included purchasing and training a horse, developing a strategy, entering the race and beginning the training.”

Susanne trained the horse, “Maury” (aka Over A Mile) who not only carried them to First Woman/Woman team but also earned the title of Best Conditioned Horse. Michelle describes him as a ten year old chestnut Arabian who loves carrots.

Training themselves was also part of the plan. Michelle says it was fun because everyone in the family got involved. Michelle started riding again once or twice each week and returned to her running schedule which includes running five days a week, including one day of hill intervals. On the weekend she goes for a long run. Her father, Dave Andreotti, was her when she goes on long runs. “...with Gu, Blistex filled with water, and occasional swear words...”

Their strategy for the race, was to have Susanne start on the horse and get him out in front. From there, Susanne would run up the hills and Michelle down, utilizing both their strengths and weaknesses. “We let Maury set his own pace whether going up or down. He definitely likes speed, but so do I so it works out well,” says Susanne.

Their strategy worked out well. Michelle says, “I knew we were fairly quick, but wasn’t sure we could stay up with the ‘front runners’. After coming into the first vet check I thought we might have a chance at winning due to a very fit horse and very fast uphill running partner. The mountain coming out of the vet check was unrelenting and quite steep in places. I could not believe how far up the hill Susanne had reached by the time I got to her. The course was designed beautifully and suited our strategy to a tee.

Both women have fond memories of early ride & ties where they camped and played with their ride & tie friends. “Some of my favorite memories is when Dad crossed the finish line at Big Creek Ride and Tie Championship in the Santa Cruz mountains.”

Both daughters know he is very proud of their accomplishment. Michelle says, “I know I’ll never be able to run as fast as he did, but I keep training in hopes that someday I might. He loves to compete, race or do anything that involves speed and I know he really enjoyed watching us win. I haven’t seen a smile on my Dad’s face like that in a very long time.”

Susanne adds, “My dad is an old ride & tie. I am sure we made him proud. The funny thing is on Thursday before the race when we were going down the course he was following me riding his mount and said, “You know, if you ride this fast during the race, you’re not going to finish.” I just smiled and laughed a little...because we were trotting and I knew we would be going way faster on race day.”
Juniors at the Championship

Photos on the trail were taken by Barry Thorpe. Finish line photos were taken by Annie Betts and Peter Ramsing.

2009 Championship Ride & Tie by Ben Volk

My partners this year were 15-year-old Lucas King from Trout Lake, WA and his Mom’s Arab horse, MonDart. Lucas’ Mom, Steph Irving, and I finished 15th at the Championship two years ago. MonDart is a seasoned 22-year-old endurance horse, and this was her fourth Ride and Tie. This was Lucas’s second Ride and Tie after completing the Mt. Adams Ride and Tie in May 2009.

Once again this year I did the ride-out from the meadow. It was a little calmer than last year since MonDart had her buddy Fleesa Flyer running next to us with Steph in the saddle. We did a hand-tie at one mile with Steph’s husband, Steve King. I had ridden the first loop a couple of days before the race on my mountain bike, so I knew a little of what to expect on the course.

We ran strong for the first four miles and were tying every one half to one mile. Once we got to the downhill portion of the Red Loop we decided to just run downhill with the horse. Lucas is an excellent downhill runner, and we thought we would save MonDart’s legs for later in the race.

Coming into the first vet check we were in third or fourth place. We fueled up and Lucas headed out on the run. I took Dart to the pulse team and her pulse was down to 44. We headed over to the vet and everything looked good until we trotted out. Dart was off a little on the front right leg. I jogged her around camp for ten minutes to try to loosen up her leg. We tried it again and the vet agreed to let us proceed. By this time Lucas had been running for at least twenty minutes.

Heading out of vet check was another almost four mile climb. Dart did well until about two thirds of the way up the hill when she decided that I should pull her up the hill. CONTINUED ON PAGE 13.

Ride & Tying through the Redwoods

by Veronica Spadafore

It was the day of the Ride and Tie Championships in Humboldt County. I woke up to the sounds of hoof beats on the road by my tent. I was worried I had slept too late, but when I looked at the clock it was only 5:45 in the morning. The night before there had been lots of wind and some rain, so between me waking up from the noise of the storm and dreaming the tent was going to blow away, I was pretty sleepy. I admired the early risers who braved the cold to get their horses out before everyone else. Then I felt guilty that I was still in my tent, so I got dressed and stepped out into the overcast morning.

Hurriedly I grabbed some breakfast but could not eat much because I was feeling anxious about the race. As race time got closer, the campsite was beginning to bustle. I recognized voices of a select group of women, all loudly calling suggestions to each other from different horse corrals. I realized that my hopes to get ready in a low stress environment were dashed. Horses were calling to each other, people were calling to each other, and some riders were already on their horses trotting around the circular road. The added noise of truck engines starting, pots and pans clashing, kids running, and dogs barking really made my stress level go up. I remembered a drama teacher I used to have who had to take her "stress pills" before a performance. I wondered if I needed some stress pills. Susan came running up to me. “Are you ready? Get ready!” After that I knew I was going to look into getting some stress pills. CONTINUED ON PAGE 12.
39TH ANNUAL RIDE & TIE CHAMPIONSHIP
35 MILE CHAMPIONSHIP COURSE
RACE RESULTS

3 57  Michellie Andretti and Susanne Rowland on Maures
4 00  Jim Howard and Sarah Howard on Magic Sirocco
4 29  Heidi Lambert and Jenniffer Tiscornia on Voltaire
4 40  Elaine Ruprecht and Tom Gill on Pinefar
4 41  Trace Bakerwell and Rufus Schneider on Dos Madres
5 06  Jessica Jacobs and Jenniffer Siegel on Brizzo
5 15  Lucas King and Ben Volk on Mondart
5 18  Tim Clover and Melissa Queen on Desert Globe Rose
5 23  Melissa Ribeiro and Cathy Scott on Oak Hill Rambler
5 36  Barson Grant and Paul Johnson on Ron G
5 38  Kristi Sterner and Dave Van Wicklin on Jazz
6 00  Stephanie and Tim Rubin on Fleega
6 56  Berit Meser and Sexquilla Ward on Tiziona Moon
6 56  Marlene Allen and Chris Amaral on Abebe Bakila
7 12  Russ Kiernan and Rachel Toor on Pip
7 14  Carol Stewart and Melanie Weir on Olampian
7 27  Gordon Wright and Leslie Gates on Natasha
8 24  Don Beets and George Hall on Raing
7 08  Steve Anderson and Debbie Hansen-Bernard on Radish
7 42  Pat Browning and Moses Vaughan on Willie
7 45  Lori Kozachenko and Rick Neer on Justin
DNF  Gunilla Pratt and Michael Whelan on LP
DNF  Mark Richtman and Marc Tiscornia on Sal
DNF  John Hall and Don Jacobs on Hooligan

19 MILE SHORT COURSE

2 28  Carrie Barrett and David Tarpinian on River
2 43  Dave Andretti and Son Root on Laramie
2 59  Gesse Pinto and Susan Smyth on Joe Peski
3 08  Rachel Grima and Veronica Spadafore on Fly Away Joe
3 16  Julie Moreland and Steve Petersen on Torc
3 28  Fiona Orenda-Moss and Victoria Orenda on Mosito
3 31  Carol Ruprecht and Janet Ruprecht on Antar Ibn Saber
3 43  Warren Hellman and Gabrielle Mann on Flew
4 50  Marcella Olsen and Sue Turner on Annkara
5 09  Joan Ruprecht and Jeanne Sesko on Ninabara
5 30  Kelbes Giles and Regan Volk on 36
5 30  Bob Trocha and Madison Trocha on Barbie
5 30  Bailey Tibbets and Caolin Trocha on KB

NEW RULE in RIDE & TIE: Competitors under the age of 16 years of age must wear approved helmets while mounted during a race. (approval by AHSA, TCA, ANSIZ90.4 or Snell)

RIDE & TIE CHALLENGE from Jon Root

I challenge all veterans of the Ride and Tie to get back in the game in the short course. If Dave and I can do it, anyone can. We have 45 medical points. These points were awarded after a huge study at I.M. E.W.I.D W. (Institute of making excuses why I didn't win) The renowned physician Dr. Jepson gave us these points based on our 3 knee replacements, one stroke and one heart attack. George Hall is 29 points all by himself. If your team is near 100 points, maybe you should crew for someone. But get out there anyway!
Comments About the Championship

The course was awesome and the smell of the redwoods was divine.

Not as tough as Taylorsville, but the whipping wind, large raindrops on the ridge and the cold water stream crossing offered a different challenge. Jean and I had to pick up our pace while feeling the two new novices Ride and Tiers chasing behind us.

Cuneo Creek offered the best camping. Thank you to all Ride and Tiers who helped make this a great Championship.

Sue Smyth

The Short Course was great for us this year as we could NOT have done the long course. I was recovering from a bad bout of H1N1 (Influenza A), had new horse, "River", unproved for anything over 12 miles, and I was in bed with a horrendous case of flu three days before we drove up. I also had a new partner, David Tarplin (who proved to have an incredible sense of pace and timing). So Short Course would be all we could hope for this year, and we are so glad it was there for us to do. We had just an awesome time, everything was in harmony the whole way and we found the course to be perfect for us.

The Short Course was an amazing course - uncomplicated enough not to get lost on (YAY!), and incredibly beautiful, with excellent footing which made it a race to remember. All in all it went exactly how it was supposed to go, and we never really happen in Ride and Tiers!

We realized we were either lost or in the Short Course lead after the turn off from the long course. That was a good feeling when we convinced ourselves we were headed in the right direction. Then Jon Root and Mr. Andreadellis show up on us and left the vet checks before us - we really had to push it after the vet checks to get ahead of them. River had plenty left so we pulled ahead, careful to not be complacent about our lead. Needless to say, at the finish, I was said it was all over because being on those amazing trails with such variation from blowing fog with the cooling drops to coming upon mountain side meadows with sweeping views to the last part of the course through the majestic big trees is not something you want to end.

From having everything so muffled in the beginning to having everything turn out so harmonious in the end, it felt GREAT! If we had not had the short course to do, the three of us would not have been competing this year, so thank you for having a short course! And a year without Ride and Tiers Champions is like a year without sunshine.

Carrie Barrett

It was great to be back in the saddle. The short course was long enough to be hard and short enough that we did not have to do the death march the last 10 miles. Perfect!!!

On the fun side, the ride and the tie has the full gamut of emotions. Sometimes it's a near death experience and for me this time it was a "near heaven" experience. We were racing across the top in the roller coaster section. The ground was soft but firm. The horses' feet falls were just about silent. There was no one else around. Laramie was really boosting along and we came over the top of one of those sharp but rounded hill tops. For about 7 seconds, I was just about weightless. I was only touching the stirrups and the reins, perfectly balanced (by accident). I was flying. It felt like the dream I often have where I'm running through the woods about 25 MPH effortlessly. It was a rush. I could have died right there and you would have found the body with a smile on my face. - Jon Root

Specialized Saddles

The one with the adjustable fit.

EUROLIGHT SADDLE

Specialized Saddles' Eurolight delivers our 3D-Fit system and PerfectPostion stirrup technology in a lightweight, 15 pound package, including stirrups. A workhorse Endurance-bred saddle, The Eurolight features interchangeable seats in leather or fleece, for a custom look that's sure to stand out from the crowd, and in the winners circle.

Eurolight Saddle shown here has optional water bottle holders and top grain leather fenders.

I rode Away Joe, and my partner Rachel walked by me on the way to the start line. It was about a ten minute ride. People were already asking each other if they were on the right trail, and the race had not even started yet! Finally, the horses were lined up in the field, the runners on the road. One minute... "Ride and Tie-Er's get ready, set, GO!" We were off into the drizzly redwood forest.

Joe Cartez was our hand tie and the main crew. I swung off Away Joe, tossed him the reins, and I was on my first run of the race. A Ride and Tie friend had once told me that she feels like a crazy person for about the first two miles on every Ride and Tie. When I started running, I knew exactly what she was talking about. "Who, in their right mind would do this for fun?" I thought. Law and behold, after about the second mile, I was wondering who in their right mind would NOT do something like this for fun.

On the trail, chaos seemed to pass us by, but did not pass some of the others. It was only the fourth mile and somebody had run past their tied horse accidentally and had to go back. After the long and short course split, I was catching up to my runner when I saw people coming my way. Some long course teams had been blazing the short course trail by mistake. I made a mental note to pay extra attention to my trail. When I got to the meadow overlooking the valley full of redwoods, I wanted to stop and take it in the scenery, but I was in a race!

Away Joe passed thevet check thanks to his great endurance capacity. It was a short relief to have our wonderful crew help with the horse for a few minutes. The last part of the race was all downhill, and at one time I could not catch Rachel for quite a while, who was running faster than we were riding. Finally, Rachel and I were almost finished. The only thing that happened to us was that somehow, Rachel had been on foot through all the stream crossings! I felt pretty sorry that I had happened to be riding every time we came to a stream. I promised it was not premeditated!

Rachel and I crossed the finish line to complete the short course in a little more than three hours. For our second Ride and Tie, we were proud to finish in fourth place.

I am so happy that Susan Smyth has introduced me to Ride and Tie. I am thankful to have Rachel as a partner.

We are having so much fun with this sport and hope to compete in many more Ride and Ties in the future. I have met new friends and even a family member of a very special person who mentored me during my childhood. Ride and Tie is new to me, but it already seems so familiar.

Veronica Spadafora lives in Clovis and attends Fresno State. She works as a vet tech and works and rides at various horse ranches in the country near her home. This Championship Short Course was her second ride & tie experience.
2009 CHAMPIONSHIP CONTINUED  I proceeded to do that until about mile 19 when we started running downhill. After a couple of miles of downhill running I jumped on Dart and she felt like a new horse. She was following a mustang and was having a good time. We finally caught Lucas at about mile 22 and proceeded to run and ride into vet check #2. On one portion of this loop we ran through some huge redwoods.

The race elevations according to Ben's wrist GPS

The final loop was a real challenge for both Lucas and me. Dart had decided she was done racing for the day so one of us pulled while the other one followed along behind with a switch. We didn't actually need to use the switch; just a light tap on Dart's tail was enough to keep her moving. We pulled her up about two miles of hill and she finally decided it was time to run again.

At about 31 miles we passed my daughter, Regan, and her friend, Kelsey Giles, doing the 19-mile Short Course. They were all smiles and were having a great time. Dart was again feeling like a new horse so Lucas rode her in the next three miles while I ran. Lucas tied about half a mile from the finish and we ran in together as a team in 5 hours and 15 minutes. We placed 7th overall and were the first Man/Man team as well as the first Pro-Am team. For our efforts we won $1,000! Of course Lucas could not accept his winnings since it would violate his status as an amateur athlete. The winning team did the course in just under four hours. Lucas ended up running about 17 miles of the race while I ran 21 miles. Ideally, we would have always had someone riding the horse, but we both like to trail run, so the race worked out fine.

Ben Volk started riding in 2005. He has competed in the last three championships and many other ride & ties and triathlons in the pacific northwest. Ben is our new member of the Ride & The Board of Directors.

Mystery Photo from May

Michelle Roush: I think maybe that picture was from Levi's in Eureka in 1982? On the far right in front, with the helmet and chestnut horse with a star is Sherode Powers. Just to the left of him might be Bobby Hettelfinger (hat and beard), on the palomino. On the far left, in front, with the braids in her hair, on the Appy is Debbie Wagner. Second to the right from Debbie, on the gray with head up in the air, with tank top with stripe on it, might be a Wadsworth.

Leah Mirsch: The mystery photo is the start of the 1983 Levi's R&T at Eureka, CA. This picture was also used as the poster for the 1986 race at Alturas. We used it because it showed so many members of the R&T Family (now all old-timers), including Sherode Powers, Ralph Wadsworth, Mike Jepsen, Con (or Todd, can't tell which) Wadsworth, Debbie Wagner, and Lon Clearwaters. It was a great race (Alleen Johnson’s and my first Levis) and at over 200 entries it was the highest number of teams we’ve ever had. Love those old photos!
