

DaAJo Maps

DaAJo Maps* is proud to sponsor Ride with GPS maps for this event. Please follow these instructions to get the app installed on your phone and the maps downloaded to your phone. **There is no charge to you for this service.** You do not have to have a subscription. Because internet access is sketchy at best and non-existent in many cases and places, please complete steps 1-4 before arriving at camp to be sure you have the maps for the ride.

Please note that as long as you download the maps before the event, you can navigate them in airplane mode as the GPS functionality for most phones does not depend on cell tower coverage.
